***REASONS FOR ALLOWANCE***

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor suggest a memory which outputs a first burst or series of data in response to a first start address, generates an anticipated start address in response to the first start address, and outputs an anticipated burst or series that maintains an active data output stream from the first and the anticipated data series, as substantially recited in each independent claim. The invention therefore reduces time constraints on microprocessor access initiation without reducing the memory access output speed.

***Information Disclosure Statement***

2. The information disclosure statements (IDS) submitted on July 8, 2003 and August 6, 2004 were considered by the examiner, except that obvious duplicates were lined out, and one apparent typo corrected.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
